TURNKEY COMMERCIAL PROPOSAL

Custom Visa CRM, Client Portal, B2B Network, Cloud Infrastructure & Complete API Suite | Prepared for: Venture Visionary Visa & Business Consultancy, Doha, Qatar

Client Name: Venture Visionary Consultancy	**Target Market:** **Qatar & GCC Region**	**Currency Basis:** BDT / QAR Equivalent	**Platform Ownership:** **100% Client-Owned**
Document Version: 3.0 (Turnkey Edition)	**Delivery Model:** **All-Inclusive Turnkey Delivery**	**Turnkey Packages:** BDT 3,00,000 or BDT 3,40,000	**Delivery Timeline:** **3 to 4 Months**

1. EXECUTIVE SUMMARY & TURNKEY VALUE PROPOSITION

Venture Visionary is positioning itself as Qatar's premier visa processing and business consultancy firm. Running high-value operations through disparate spreadsheets, manual WhatsApp tracking, and disconnected tools creates operational bottlenecks, risks compliance errors, and caps agency revenue growth.

To provide a zero-hassle, complete solution, this proposal delivers an **All-Inclusive Turnkey Platform**. Under the Turnkey model, our engineering team manages 100% of the custom software development, cloud server setup, database security, official WhatsApp Business API integration, transactional SMS gateway, encrypted document vault, staff training, and ongoing technical maintenance. You receive a fully operational, live system ready to generate business from Day 1.

> **Turnkey Investment Snapshot:**
> • Turnkey Professional Package (All-Inclusive): BDT 3,00,000 (~QAR 9,100 / ~$2,500 USD)
> Includes full CRM, 193-Country Visa Engine, Document QC, Client Portal, Financials, Cloud Server & WhatsApp API setup.
> • Turnkey Enterprise & B2B Expansion Suite: BDT 3,40,000 (~QAR 10,300 / ~$2,830 USD)
> Includes everything above PLUS Multi-Tenant B2B Sub-Agent Portal, Credit Wallets, Wholesale Net Rates, 1 Full Year Cloud Infrastructure, and Priority Maintenance.
> • Zero Recurring User Seat Fees: Save $5,000+ USD every year compared to Zoho, Salesforce, or HubSpot per-user subscriptions.

2. CORE BUSINESS MODULES DELIVERED

The platform is engineered specifically for visa consultancy operations with a clean, intuitive interface:

- **Inbound Lead Engine & Meta/Web Ad Ingestion:** Automatically captures inquiries from Meta campaigns, Google Ads, and website forms. Instantly scores leads, flags duplicates, and routes prospects to consultants with automatic assignment rules.
- **193-Country Visa Directory & Dynamic Checklists:** Pre-configured visa rulebook for Schengen, UK, USA, Canada, and GCC countries. Automatically populates mandatory document checklists, embassy fees, VAC biometric costs, and agency consultancy fees.

- **Smart Document Vault & Quality Control (QC):** Automated passport/QID expiry tracking and verification workflows. Staff approve or reject documents with one click, automatically sending applicants an instant re-upload notification.
- **Real-Time Visa Case Lifecycle & Timeline:** Visual progression from document preparation to appointment booked, embassy filing, passport release, and delivery with strict SLA adherence.
- **Client Self-Service Tracking Portal:** Applicants log in securely with their phone number and OTP to track application status 24/7, upload pending documents, and download receipts. Internal profit margins are strictly hidden.
- **B2B Sub-Agent & Corporate Travel Partner Portal:** Dedicated multi-tenant portal for external travel agencies to submit client cases in bulk, view wholesale net rates, and operate on corporate credit limits and prepaid wallets.
- **Commercial Quotations, Invoicing & Multi-Currency Profit Ledger:** Generate branded PDF quotations in QAR, USD, EUR, or GBP in seconds. Captures immutable pricing snapshots at agreement time to safeguard agency profit margins.
- **Executive Leadership Dashboard & Audit Trail:** Provides ownership with real-time analytics on daily inbound leads, active visa pipelines, revenue forecasts, and consultant conversion rates.

3. THIRD-PARTY SERVICES, API INTEGRATIONS & CLOUD INFRASTRUCTURE

In addition to custom software engineering, a modern commercial CRM requires external APIs and cloud infrastructure to deliver automated messaging, client authentication, and secure document storage. Below is the full breakdown of included services:

Service / API Integration	Operational Role & Business Impact	Turnkey Inclusion Status
Official WhatsApp Business Cloud API	Direct Meta Cloud API setup for automated instant lead acknowledgments, document reminder pings, appointment date alerts, and visa approval notifications.	**Included in Turnkey (Setup, Webhook & Messaging Reserve)**
Transactional SMS Gateway (OTP & Alerts)	Carrier SMS integration for two-factor authentication, secure client portal OTP login, and urgent passport collection SMS alerts.	**Included in Turnkey (Gateway Setup & Verification Pack)**
High-Speed Cloud VPS Infrastructure	Dedicated high-performance Linux cloud server (Hetzner / DigitalOcean) optimized with Nginx, PHP 8.3-FPM, PostgreSQL 16, and Redis in-memory cache.	**Included in Turnkey (6 Mo. in Std / 12 Mo. in Enterprise)**
Encrypted Document Storage Vault	High-capacity, AES-256 encrypted file storage vault for client passports, bank statements, salary certificates, and visa grants with	**Included in Turnkey (Storage & Backup Provisioning)**

	automated daily off-site backups.	
Meta & Webhook Lead Ingestion APIs	Real-time webhook connectors linking Facebook & Instagram Lead Ads directly to the CRM pipeline without manual data entry.	**Included in Turnkey (Full API Connector & Testing)**
Domain, Corporate Email & SSL Security	Custom agency domain configuration (e.g. portal.venturevisionary.qa), SPF/DKIM transactional email deliverability, and automated SSL certificate renewals.	**Included in Turnkey (Complete Security Hardening)**

4. TURNKEY COMMERCIAL PACKAGES & PRICING

We offer two all-inclusive Turnkey packages designed to fit your operational timeline and business growth objectives:

Turnkey Package Tier	Software Scope & Business Deliverables	Included APIs & Infrastructure	Turnkey Investment
TURNKEY PROFESSIONAL (Standard Complete Solution)	• Full Staff CRM, Lead Engine & Unified Inbox • 193-Country Visa Directory & Dynamic Checklists • Document Vault, Quality Control & Expiry Alerts • Real-Time Visa Case Lifecycle & Timeline • Client Self-Service Tracking Portal (OTP Login) • Quotations & Invoicing System (Multi-Currency) • Executive Management Analytics Dashboard • Full Source Code & Database Ownership • Complete Staff Training & Handover	• 6 Months Dedicated Cloud VPS Server • 6 Months Automated Off-site Daily Backups • Official WhatsApp Business API Integration • Pre-funded WhatsApp Notification Reserve • Transactional SMS Gateway & OTP Pack • Domain & SSL Certificate Setup • 6 Months Dedicated Technical Maintenance	**BDT 3,00,000 (~QAR 9,100) (~$2,500 USD)** **[Fixed Turnkey Deal]**
TURNKEY ENTERPRISE (Full Agency & B2B Suite)	• Everything in Turnkey Professional, PLUS: • Dedicated B2B Sub-Agent / Partner Portal • B2B Corporate Credit Limits & Wallet Engine • Wholesale Net Rate Cards & Commission Accounting	• 1 Full Year High-Performance Cloud VPS • 1 Full Year Automated Daily Backups • High-Volume WhatsApp Messaging Reserve • Extended SMS Authentication Credit	**BDT 3,40,000 (~QAR 10,300) (~$2,830 USD)** **[Full Enterprise Turnkey]**

	• Strict 12-Role RBAC & Multi-Department Hierarchy • Meta Ads Instant Ingestion Webhooks • Advanced Workflow Automations & SLA Alerts • Complete Administrator Documentation	Bundle • High-Capacity Encrypted Document Vault • Priority SLA 24/7 Server Monitoring • 1 Full Year Priority Maintenance & Warranty

> **Why the Turnkey Bundle Saves Money & Time:**
> If software development, server deployment, official WhatsApp API setup, SMS gateways, and 12-month maintenance were procured separately from different vendors, the total cost would exceed BDT 4,20,000+ with significant coordination friction. Our all-inclusive Turnkey model gives you a single point of accountability, pre-tested integrations, and guaranteed live delivery for BDT 3,00,000 or BDT 3,40,000.

5. PAYMENT SCHEDULE & LOW-RISK MILESTONES

To eliminate client risk, payments are tied strictly to demonstrated completion of milestones:

Milestone	Deliverable Condition	Share	Turnkey BDT 3,00,000	Turnkey BDT 3,40,000
Milestone 1: Project Kickoff	Agreement signing, cloud server provisioning, domain setup, and workflow blueprint sign-off.	**25%**	**BDT 75,000 (~QAR 2,275)**	**BDT 85,000 (~QAR 2,575)**
Milestone 2: Core CRM Delivery	Delivery of Staff CRM, Lead Engine, 193-Country Visa Directory, and Document QC Vault.	**35%**	**BDT 1,05,000 (~QAR 3,185)**	**BDT 1,19,000 (~QAR 3,605)**
Milestone 3: Portals & APIs	Delivery of Client Tracking Portal, WhatsApp API integration, SMS OTP, and B2B Partner Portal.	**25%**	**BDT 75,000 (~QAR 2,275)**	**BDT 85,000 (~QAR 2,575)**
Milestone 4: Handover & Go-Live	Final end-to-end testing, staff training, documentation handover, and official live deployment.	**15%**	**BDT 45,000 (~QAR 1,365)**	**BDT 51,000 (~QAR 1,545)**

6. LONG-TERM VALUE: CUSTOM TURNKEY VS. OFF-THE-SHELF SAAS

Commercial off-the-shelf software (like Zoho, Salesforce, or HubSpot) charges expensive monthly per-user licenses and recurring add-on fees that continuously escalate as your agency grows:

Evaluation Factor	Off-The-Shelf SaaS (e.g. Zoho / HubSpot)	Venture Visionary Turnkey Platform
User Licensing Fees	Continuous monthly fees per staff user ($35–$150/user/month). For a team of 10, that is $4,200 – $18,000 USD every single year.	ZERO recurring user fees. Add unlimited consultants, sub-agents, and client profiles with no added license fees.
Visa & QID Specialization	Generic CRM; requires thousands of dollars in consultant fees to customize for visa workflows and embassy checklists.	Custom built specifically for Schengen, UK, US, Canada, and GCC visa workflows, checklists, and document verification.
Data Sovereignty & Privacy	Applicant passport scans, salaries, and sensitive client documents sit on third-party multi-tenant servers.	100% private, sovereign, and secure. Hosted on your own dedicated cloud server with encrypted databases.

7. AGREEMENT & SIGN-OFF
